WEEKLY PROGRESS TREND (ALL INITIATIVES)

THIS WEEK'S OBJECTIVES

- 1 Review the plan with Mike Nahar from the sports talent identification and development pilot program.**

Expected result — Allocate responsibilities, set deadlines, and decide on an implementation date

Success indicator — 2 coordination meetings with Mike, a draft document outlining the tests to be administered
- 2 Organize course topics with coaches who attended the workshops on August 1 and 5**

Expected result — Establish priority topics and content for a second workshop that addresses the topics they requested

Success indicator — An email sent to the coaches asking them to suggest topics and content for the second workshop.
- 3 Federation Analysis Document (Federation Rankings)**

Expected result — Establish categories that will enable the creation of a tool to support and monitor sports federations and associations—not as a punitive measure, but as a document that identifies areas for improvement in order to strengthen the management of these federations and associations and, consequently, national sports.

Success indicator — A draft document for implementation based on the information I have from the assessment and the meetings held with each of the federations. It will provide the SOC with an objective document to help the sports federations and associations.

EXECUTIVE SUMMARY

This week I settled back into life in Suriname, with everything that entails—an apartment, a car, and the errands that go along with them. I attended meetings at the SOC offices, as well as a meeting with Panam Sports and an awards ceremony for the various volleyball categories.
