## WEEKLY PROGRESS TREND (ALL INITIATIVES)

THIS WEEK'S OBJECTIVES

1. Strengthen individualized athlete preparation through technical monitoring, medical coordination and educational activities for the Youth Olympic Games.

   Expected result — Continued athlete preparation through adapted training recommendations, direct technical follow-up and structured Olympic education.

   Success indicator — Third educational session delivered, athlete training monitored and medical-support needs identified.

2. Assess international training and medical-support alternatives for Dakar 2026 athletes while reviewing Belize's competitive performance and qualification opportunities.

   Expected result — Preliminary options for integrated training and recovery identified, alongside an evidence-based assessment of the Lima 2027 road cycling qualification pathway.

   Success indicator —

3. Support the continuity of the Panam Sports Academy coaching certification process and advance institutional follow-up on the Belize Sports Prioritization Model.

   Expected result — Coaches guided on academic requirements and the Executive Committee review process supported.

   Success indicator — Module 2 coordination and Module 1 assessment reminders prepared; Version 3 review arrangements and feedback deadline communicated for institutional coordination.

EXECUTIVE SUMMARY

The week focused on Dakar 2026 athlete preparation, coach education, competition planning and institutional coordination.

The third Youth Olympic Games preparation session and anti-doping training were completed. Direct monitoring of two injured athletes included recommendations to adapt training while supporting recovery. Preliminary international contacts explored specialized coaching and medical support, subject to budgetary and institutional review.

Panam Sports Academy CC1 coordination continued through Module 2 activities and follow-up on pending Module 1 assessments.

Belize's Caribbean Road Cycling Championships results were reviewed, highlighting sixth- and tenth-place finishes. Lima 2027 qualification criteria were analyzed to identify future opportunities.

The Belize Sports Prioritization Model advanced through institutional review coordination and preparation for assessment matrix development. Initial progress in training planning and monitoring included individualized training adjustments.

INITIATIVE PROGRESS

### Strategic Competition Planning and Preparation Support

In Progress

HIGH PERFORMANCE

8/10

No change vs. last week

Athlete preparation advanced through the third Dakar 2026 educational session, anti-doping training, direct monitoring of two athletes and medical follow-up. Preliminary international contacts were established to explore specialized training and medical support in another country, subject to institutional approval and budget availability. Belize's Caribbean road cycling results and Lima 2027 qualification opportunities were also assessed.

### Federation Performance Planning and Technical Coordination

In Progress

STRATEGIC

8/10

No change vs. last week

Technical coordination continued through the review of Belize's performance at the Caribbean Road Cycling Championships and the application of the Lima 2027 qualification criteria. The analysis highlighted sixth- and tenth-place finishes, assessed the implications for direct qualification and identified future opportunities to inform federation-level competition planning.

### Belize Sports Prioritization Model

In Progress

STRATEGIC

5/10

▲ 1 vs. last week

Following the Executive Committee presentation, institutional follow-up focused on preparing the circulation of Version 3 for review and collecting members' comments by October 16. The feedback process will support any necessary refinements before developing the model's assessment tools and advancing toward pilot implementation.

### Sports Training Planning, Organization and Monitoring

In Progress

DEVELOPMENT

4/10

First week tracked

echnical monitoring focused on adapting training during injury recovery. Following Melody's physiotherapy appointment, recommendations were reviewed to avoid stressing her affected shoulder while maintaining appropriate training activities. During Saturday's training visit, specific adjustments were recommended to Jaiden's coach to modify training sessions according to his injury-related limitations and monitor his recovery and training continuity.

PANAM SPORTS SUPPORT NEEDED

Strengthen information exchange and coordination with Panam Sports Academy to verify coaches' assessment status, resolve access or technical difficulties, and support the completion of pending Module 1 examinations within the CC1 Coach Certification Program.

CHALLENGES

High priority · In Progress · TECHNICAL

Injuries affecting two Dakar 2026 athletes require adjustments to their training programs, coordination with medical professionals and ongoing monitoring to maintain preparation

without compromising recovery.

Action — Obtain updated medical recommendations, coordinate training modifications with coaches and monitor athlete recovery and training continuity.

High priority · In Progress · LOGISTICAL

The limited time available before Dakar 2026 presents a significant challenge in organizing specialized training and comprehensive medical support abroad. The goal is to ensure continuous rehabilitation and professional monitoring while allowing athletes to maintain their sport-specific preparation.

Action — Assess the feasibility, budget and logistics of arranging specialized coaching, daily rehabilitation and ongoing medical support within a short timeframe, ensuring that injury recovery and continued training can be effectively integrated.

High priority · In Progress · COORDINATION

Advancing the Belize Sports Prioritization Model requires timely feedback from the BOCGA Executive Committee, alongside continued development of the assessment matrix, scoring guidelines and sport-specific competitive references for pilot implementation.

Action — Follow up on Executive Committee feedback by October 16, consolidate observations and incorporate necessary refinements while advancing the assessment matrix and methodological tools for the pilot phase.

Low priority · In Progress · COORDINATION

Some coaches participating in the Panam Sports Academy CC1 certification program have not yet completed the Module 1 assessment. Ensuring their progress while Module 2 is underway requires continued follow-up and coordination.

Action — Follow up with coaches who have pending assessments, encourage timely completion and coordinate with Panam Sports Academy to verify or update records where participants report having already completed the examination.

---

NEXT WEEK FOCUS

Obtain Executive Committee feedback and advance the prioritization matrix; monitor athlete recovery and international support feasibility; continue Dakar 2026 education, training adaptations, CC1 assessment follow-up and competition planning.
