WEEKLY PROGRESS TREND (ALL INITIATIVES)

THIS WEEK'S OBJECTIVES

1 For this week is cover the training for the coaches and presidents, get more than the 50% of audience in each session

Expected result — For this week continue the strategy discussed last week, Veda and Denisse help to contact directly the coaches and presidents for this training sessions. With this strategy for the presidents 10 of 17 attended the session and for the coaches were 12. For the coaches the training was so productive they were so interested on the content and we make like a work table con this training.

Success indicator — The audience and the interest they show in the session, coaches and presidents in their respective sessions, refer important points that open the discussion of the content and the experiences shared by the Olympic coaches help a lot to the others

2 Continue encourage the coaches and presidents to attend this training session, continue working on the strategy for LA28 and the implementation

Expected result — For the next week cover the planing of the sessions and try to finish the master plan for the elite group and the strategy for the Panamerican Games, give the follow up of the performance of the athletes that gonna participate on Dakar

Success indicator — Complete the activities planing for the next week

EXECUTIVE SUMMARY

For this week the training was successfully completed, on the session with the coaches again the reminder of some issues like the small athletes population means multiple sports compete for the same kids, make it talent detection and specialization difficult. Límites pre competitive opportunities at the regional level in most of the sports, so with this issue it's difficult to develop them. Financial pressure on athletes create tension between competing for prize money and prioritizing national representation competitions, the facilities.
For that i wanna suggest a proposal to share and discuss with the others methodologist like some brain storm to define some initiatives that could be implemented with Panam Sports program in the general issued that the region has, and try to implement the solution like one of the final products of this project with the methodologist.
