WEEKLY PROGRESS TREND (ALL INITIATIVES)

THIS WEEK'S OBJECTIVES

1 Support athletes, coaches, and Chefs de Mission participating in the Central American and Caribbean Games and the Commonwealth Games.

Expected result — Pre-travel meetings are held with Boxing, Athletics, and Swimming athletes and coaches ahead of the CAC Games. These meetings will help clarify each athlete's individual needs, preferred routines, support requests, coach expectations, and plans for the days leading up to and during competition. As needed, individual check-ins will also continue with coaches and the Chef de Mission supporting the delegation travelling to Glasgow for the Commonwealth Games including reports post-games where possible.

Success indicator — Pre-travel meetings are completed with available Boxing, Athletics, and Swimming athletes and coaches. Athletes are given a structured opportunity to communicate their needs before, during, and after competition. Coaches better understand each athlete's routines, preferences, and performance-support needs. Relevant information is communicated, on a need-to-know basis, to the appropriate members of the athlete entourage. Coaches and delegation personnel are better prepared to provide individualized support within the practical context of Dominica's relatively small Games delegations.

2 Support the Dominica Olympic Academy and the Local Sport Methodologist in preparing an article for the International Olympic Academy Official Journal highlighting the impact of the OVEP workshop in Dominica. In addition, support the Academy in completing the formal process required to confirm its change of Chair and report the change to the DOC President.

Expected result — The Local Sport Methodologist prepares an article that meets the required word limit and submission guidelines. Feedback is obtained from the Capacity Officer, Sport Methodologist, and OVEP Master Trainer and Facilitator. The article is revised accordingly and submitted to the International Olympic Academy. Ms. Staci Hill obtains the formal resignation letter from former Chair Mr. Woody Lawrence and submits the relevant documentation to the DOC President to formally record and confirm the leadership change.

Success indicator — A complete draft of the article is prepared within the required 350-word limit. Feedback is received from the relevant reviewers and incorporated into the final version. The final article and required high-resolution photographs are submitted to the International Olympic Academy by the established deadline. The former Chair's resignation letter is received and formally submitted to the DOC President. The Academy's leadership records are updated, and the change of Chair is formally communicated through the appropriate reporting channels.

- 3 Provide additional support to targeted national federations that are not currently occupied with Games participation, particularly Cycling, Basketball, and Volleyball, to advance priority administrative and technical-development tasks.

Expected result — The Cycling Federation is supported through communication with the UCI and the coordinators of the recent training camp in Trinidad and Tobago to obtain information about the participating Dominican athletes, the skills covered during the camp, and any relevant technical feedback. Additional resources concerning coach and commissaire development pathways are presented to the Federation President for review and used to advance the federation's athlete, coach, and commissaire pathway documents. Coach and referee databases are created for the Volleyball and Basketball Federations. Relevant pathway and certification resources are also collected and saved in each federation's shared folder for review by their respective executives and future use in developing coach and referee pathway documents.

Success indicator — Follow-up communication is completed with the UCI and/or the Trinidad and Tobago camp coordinators. Available feedback on the participating Cycling athletes and the content of the training camp is obtained and shared with the Federation President. Relevant coach and commissaire development resources are identified, organized, and presented to the Cycling Federation for review. Draft coach and referee databases are created for Basketball and Volleyball. Relevant certification and pathway resources are saved in the appropriate federation shared folders. The executives of the targeted federations are invited to review, verify, and provide feedback on the information.

EXECUTIVE SUMMARY

During July 20–26, work focused on athlete support, federation development, Olympic Academy assistance and strategic coordination. Pre-travel meetings were completed with Dominica's Swimming, Athletics and Boxing athletes, coaches and the Local Sport Methodology Officer. Athletes shared routines, logistical questions and individual support needs. Relevant information was provided to the Chef de Mission, and training arrangements and follow-up were coordinated. Check-ins continued with the Commonwealth Games delegation. Support progressed for Cycling, Volleyball and Basketball federations. Leadership was asked to review coach, referee and commissaire databases, pathways and professional goals. Volleyball confirmed that national team training had resumed. Basketball President was encouraged to pursue regional knowledge exchanges while he is in Santo Domingo. Support continued for the Olympic Academy's OVEP journal article and leadership-transition documentation. Marketing discussions explored Commonwealth Games storytelling. Ministry responses on the MoU, facilities and shared services remain pending, requiring follow-up after the DOC President returns.

INITIATIVE PROGRESS

Targeted Technical Expertise & Coach Multiplication

● In Progress

DEVELOPMENT

7/10

▲ 1 vs. last week

Boxing, Athletics and Swimming athlete, coach and chef de mission attending CAC Games coordination progresses ahead of the games as Chef de Mission is on the ground and connecting with the Darnell Cassel (Boxing) in person as well as other athletes and coaches online as the rest of the team prepares to join them in Santo Domingo. Key support needs have been identified by athletes, coach recommendations also accounted for and both have been communicated to the Chef de Mission for coordination. Ongoing support to all members of the delegation continues. In addition, check ins on an as needed basis continue with delegation in Glasgow Commonwealth Games. CAC games team appears to need more support as Glasgow team consists of more experienced athletes and coaches who know the athletes well.

High Performance & Institutional Capacity Acceleration

HIGH PERFORMANCE

In Progress

No change vs. last week

The local Sport Methodology Officer and Sports Methodologist continue to develop coaching and referee pathway documents and to direct leadership of national federations to resources for their consideration of possible professional development goals for coaches and referees in their federations. In particular, the focus now is on Volleyball and Cycling as their leadership is on island. Also, the basketball President has been advised to liaise with other basketball federation presidents in Santo Domingo to discuss CAC games qualification pathway for future consideration (although basketball for Dominica is not at CAC games, the President of the Basketball Federation is in Santo Domingo in another capacity and has been advised to use this opportunity for knowledge exchanges with other basketball leaders in the region for ongoing future development, exchange opportunities and professional development of coaches athletes and referees as well as long term planning of qualification pathways.

Formal Government and Dominica NOC Cooperation

STRATEGIC

Delayed

▼ 1 vs. last week

This initiative is pending follow-up with the Ministry of Sport and the Ministry of Education after the President returns from the games. In the meantime, next week, I will reach out advising them that members of the the Olympic Academy will be reaching out to the participants fo the Olympic Values Education Programme to continue engagement, and explore opportunities for future collaboration.

Shared Services and Coordination

ADMINISTRATIVE

On Hold

No change vs. last week

The proposed shared services and facility coordination matters remain pending. Capacity officers advise that the Ministry of Sport has not yet provided an update. If we do not receive an update by next week, I will reach out to the minister of sport to request that he meet with the DOC President upon the President's return from the Commonwealth Games.

PANAM SPORTS SUPPORT NEEDED

Any strategies to address the communication challenges we are having with the Ministry of Sport would be greatly appreciated.

CHALLENGES

High priority

Addressed

LOGISTICAL

There were some challenges coordinating support for athletes and maneuvering logistical challenges including scheduling and transport but they have been resolved.

Action — Ongoing communication to ensure any future challenges are also addressed as soon as possible. Ongoing check ins with delegation to assess and respond to needs as they arise will be needed.

High priority

Pending Follow-up

POLITICAL

Ministry of Sport response to MoU as well as facility coordination remains pending as no further response has been provided.

Action — Follow up communication will need to go out to the Ministry of Sport following the return of the President from the Games.

NEXT WEEK FOCUS

Continue CAC and Commonwealth Games check-ins and resolve athlete needs. Support Swimming, Cycling, Basketball and Volleyball federations in pathway documents ; strengthen Academy and OVEP engagement; advance Games storytelling, MoU and facility follow-up; and prepare for DOC strategic planning.
