THIS WEEK'S OBJECTIVES

- 1 Presented the updates and giving the feedback of June and July to the General Secretary of the CON (Veda Bruno) Technical visits

Expected result — Making good progress with all the associations, looking some arrangements for the follow up of the analysis they have been working on and start working on the individually strategies

Success indicator — Interested in work closely and with our guidance

EXECUTIVE SUMMARY

This week the training session with the associations finalized, we couldn't reach the same goal with the coaches, there for being flexible in the original plan helps me to reorganize the plan. I could make some technical visit, identified areas of opportunity an all of this gonna be integrate in the next training. Also it was so productive this period, i can realize the daily day and i will develop a process management strategy's for them.

No change vs. last week

The milestone was to get 14 associations in the training session of 17 Olympic associations , the result was extraordinary. They were interested in the topic and realize that they need to make some changes in their internal structure. For the Olympic Committee was surprising the participation of each association, at the beginning the program scope creep , but when we took directly the communication with the associations we made a big progress

NEXT WEEK FOCUS

Some associations are looking for a work table with some points that we discussed on the training session.
