Coaches Education Program

● In Progress

EDUCATIONAL

First week tracked

Coach training programme: This initiative aims to offer a Level 0 workshop for coaches, who form a vital partnership with athletes. Better coaches mean better training and competition processes for athletes. We run our own course, tailored to Suriname

Competition Preparation Support

● In Progress

HIGH PERFORMANCE

First week tracked

Support for competition preparation and the monitoring of athletes and national teams is a priority for this project; however, information has been slow to come in, and training schedules for the various sports have been delayed, but little by little we have been able to put together the schedules for monitoring. We now have a closer relationship with the athletes and coaches.

Talent Identification & Development Program

● On Hold

DEVELOPMENT

First week tracked

Talent Identification and Development Programme in Suriname: this project is already in its early stages, but has been put on hold for the time being due to the workshops scheduled for July. This initiative is essential because many athletes are not being given the opportunity to develop their potential; furthermore, it is a requirement for government involvement, with the Ministry of Sport, the Ministry of Education and the Ministry of Finance acting as intermediaries. It also involves the diaspora.

PANAM SPORTS SUPPORT NEEDED

At this stage, We will continue to build bridges of communication. We firmly believe in the workshops and that they will have a positive impact. Thank you very much. We continue to move forward for the Glory of Sport in SurinameSR. Thank you PANAM

COORDINATION

Athletes and federations are asked to submit their training schedules.

Action — We have asked for the timetables on numerous occasions, but it has been difficult.

NEXT WEEK FOCUS

We are continuing with the paperwork, meetings with coaches, and coordinating the training follow-up in Paramaribo.
