EXECUTIVE SUMMARY

This week we finally managed to hold the strategic planning workshop with nine national sports federations and associations. At the end of the workshop, the board members committed to finalizing their annual action plans within 30 or 60 days. During the workshop, we created a safe environment for growth and, above all, fostered a positive outlook toward the planning tool. The message was that we will support them in their transition from reactive organizations to sustainable ones.

DEVELOPMENT

● On Hold

No change vs. last week

This initiative is currently on hold and will resume once we have completed the two scheduled workshops on strategic planning and coach training.

PANAM SPORTS SUPPORT NEEDED

The SOC provided everything needed for this workshop. I'd like to go to the Games to accompany the Surinamese delegation, since I'm not part of it, but I don't know if that would be possible. I understand that the DRM is on July 19.

CHALLENGES

● High priority ● Addressed ADMINISTRATIVE

The federations aren't very communicative; even though they receive emails, they don't reply to them, and they receive WhatsApp messages but don't reply to those either—it's a sports culture that lacks communication. Let's hope it improves little by little.

Action — The SOC was also making direct calls.

NEXT WEEK FOCUS

1. Monitoring the federations' commitments.
2. Monitoring the training sessions of the various national teams of CACSO and ODESUR.
3. Continuing to develop the ranking of national sports federations and associations.
