WEEKLY PROGRESS TREND (ALL INITIATIVES)

THIS WEEK'S OBJECTIVES

1. Support Staci Hill in reviewing the DASH platform, developing the Shared Services Directory, advancing National Olympic Academy (NOA) work and engagement with the Olympic Values Education Programme (OVEP) community, and supporting Panam Sports Coaching Course participants.

   Expected result — The DASH review identifies items for the Dominica Olympic Committee (DOC) Executive. Staci has clear next steps for the directory, NOA work and OVEP engagement, and coaches have access to targeted support with assessments and upcoming modules.

   Success indicator — The DASH tools are reviewed and Olympic results gap and comparative statistics are identified and recommended for Executive review. A coach support session is scheduled and a poll is set up for a practical session. Eight coaches expressed interest in the practical session. Provider and facility options are identified, NOA biographies collected, and an OVEP working session is proposed to Olympian, Teacher and Olympic Academy Member Luan Gabriel.

2. Engage Panam Sports Coaching Course participants and the leadership of Basketball, Athletics, Cycling, Aquatics, Volleyball and Cricket to identify support needs and arrange follow-up discussions.

   Expected result — Initial check-ins, identify current athlete preparation, sport development and administrative priorities, with a plan for more detailed meetings.

   Success indicator — Check-ins and next steps are documented for the six federations. The Cricket planning meeting and Aquatics follow-up are arranged, and outstanding meeting dates and plans requests are tracked.

3 Engage the Ministry of Education, Ministry of Sport, Sports Division and Massacre Multisport Facility scheduling coordinator on wider OVEP implementation and facility access.

Expected result — Meetings are arranged with the four counterparts, including a discussion between Ministry of Education representatives and the National Olympic Academy on wider use of OVEP in schools.

Success indicator — Tentative mid-November meetings with the Ministry of Education and Sports Division are tracked for confirmation. Responses and next steps are recorded for the Ministry of Sport and the facility scheduling coordinator.
